Gingerbread Work Display

Instructions:

1. Cut out the head, legs, and hand pieces.
2. Glue the head and leg pieces onto the back of your work sample with the head above the page and the legs below.
3. Glue the hand pieces using the instructions below.

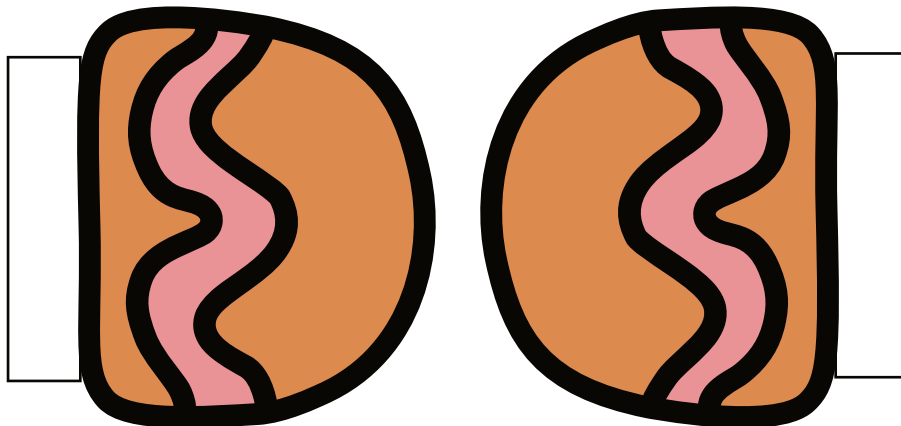

For the hands:

Apply glue on the **back** of the rectangle pieces.

Then, line up the straight edge of the gingerbread hand with the edge of the work sample.

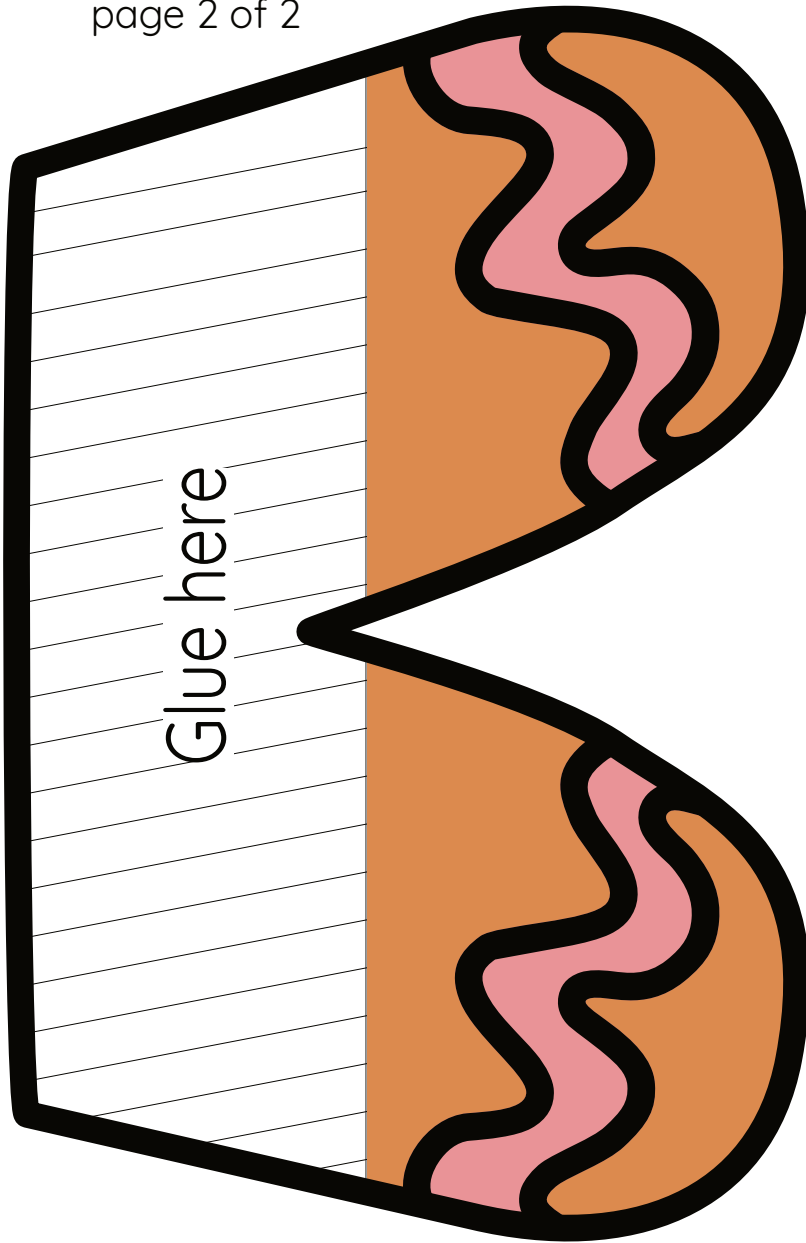

Next, fold the rectangle backwards and glue it on to the back of the work sample.

If needed, place a dab of glue on the back of the hand to hold it in place on the front of the work sample.
