

Cupcake Counting Activity Instructions

***Color Printed Option**

1. Print the color version of the cupcake pages you want to use.
2. Cut out the cupcake frosting, base, and desired number of circle sprinkles.
3. Place glue on the "glue here" tab and adhere the frosting to the top of the base.
4. Glue the sprinkles on the frosting as desired.
5. Write the number of sprinkles in the white circle.

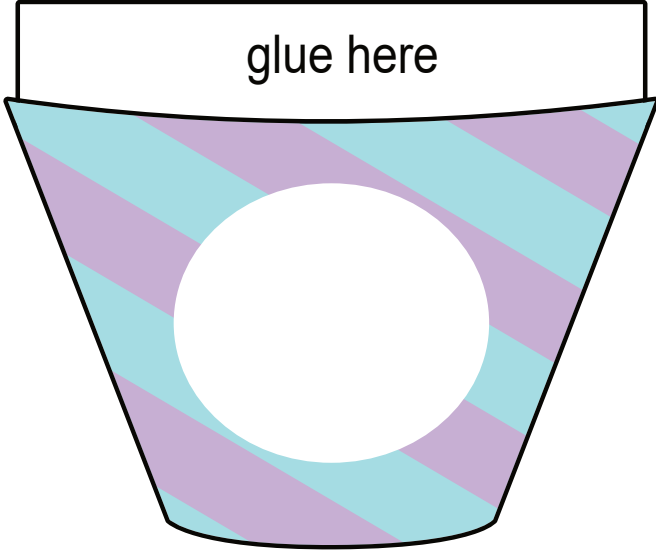

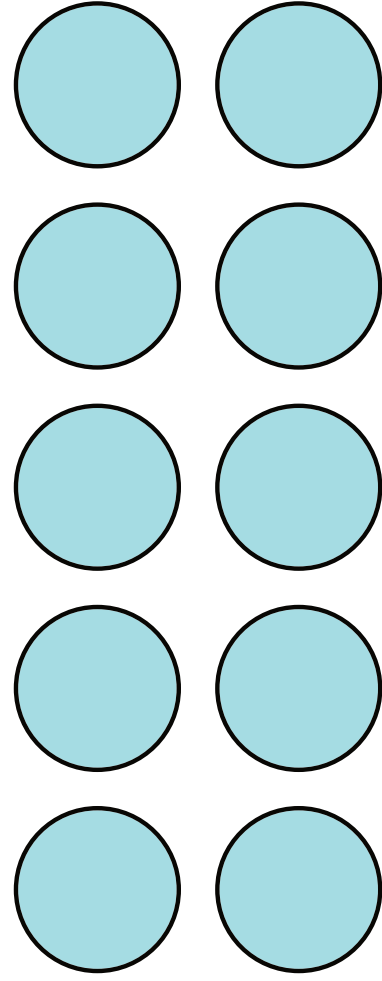

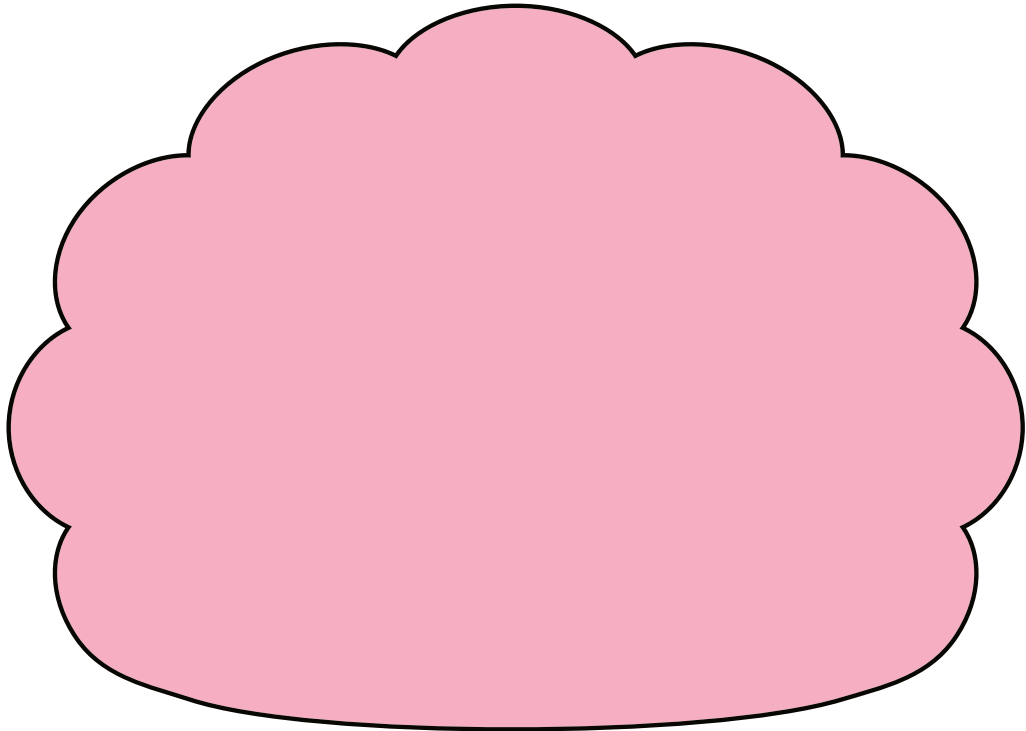

***Black and White Option For Children To Color**

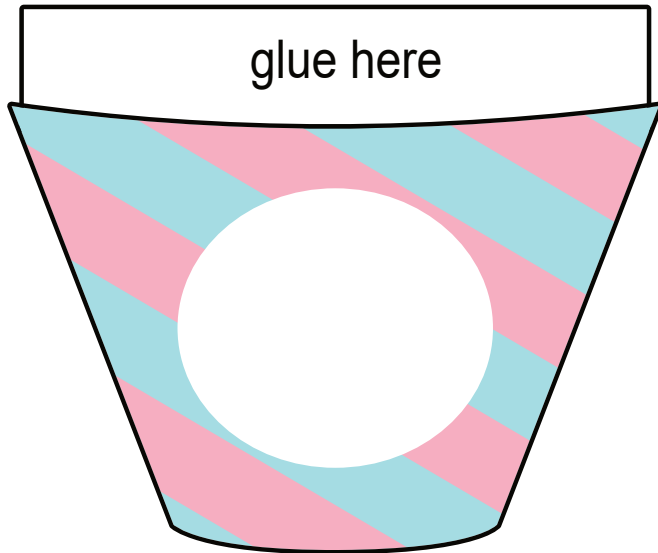

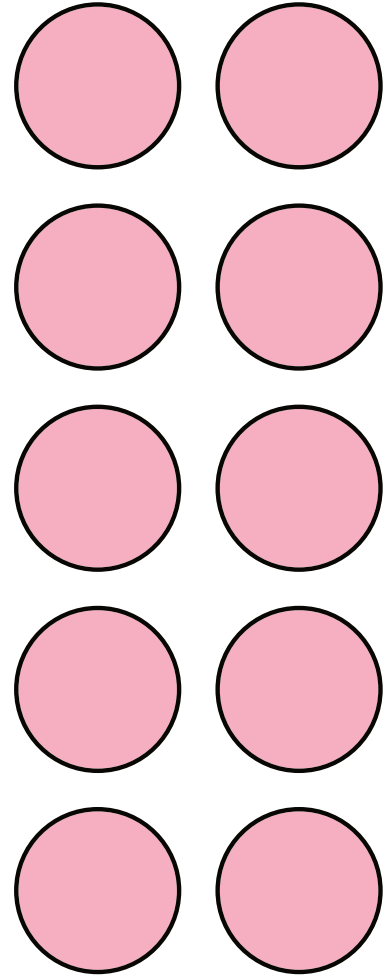

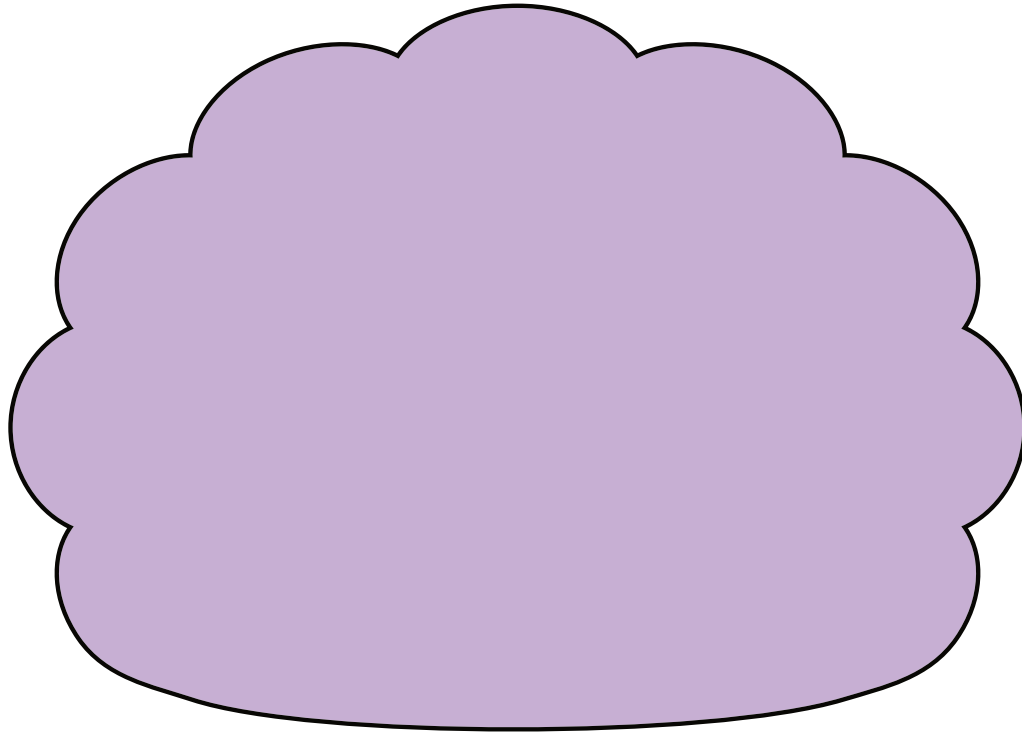

1. Print the black and white cupcake counting page.
2. Have children color the page as desired.
3. Complete steps 2-5 as listed above for the color printed option.

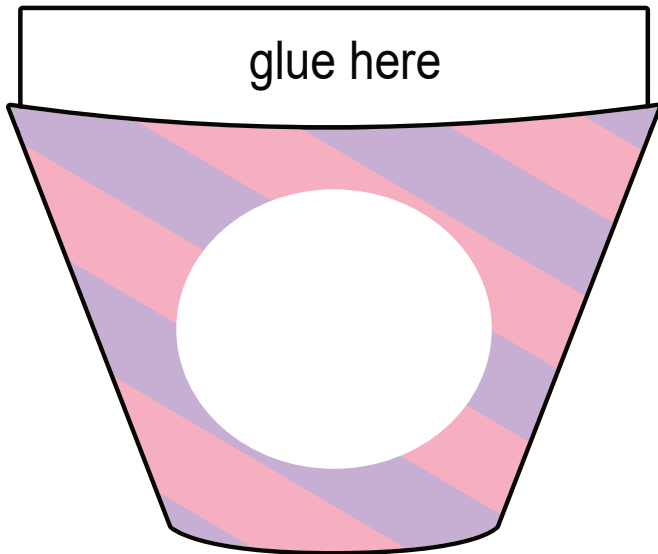

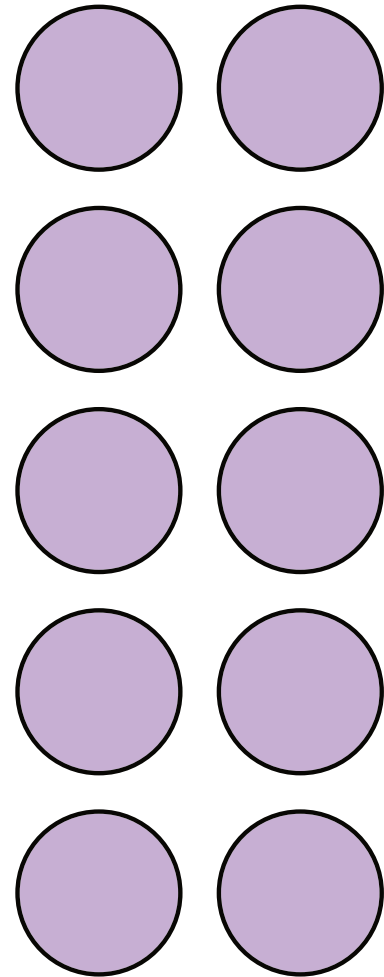

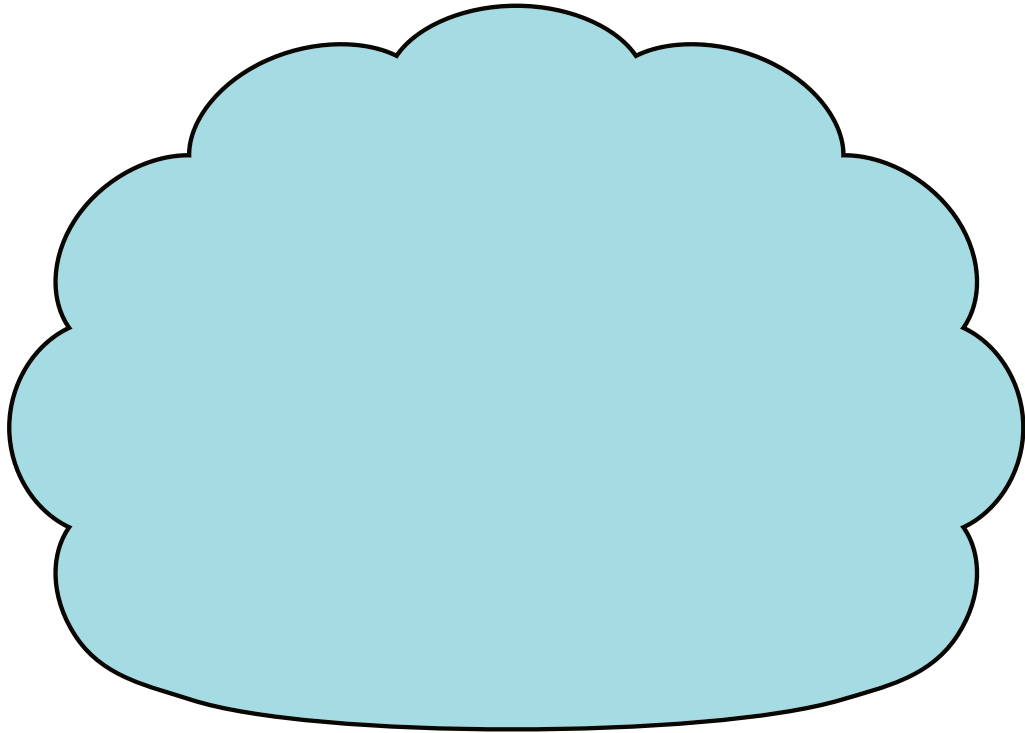

***How To Create A Reusable Counting Activity**

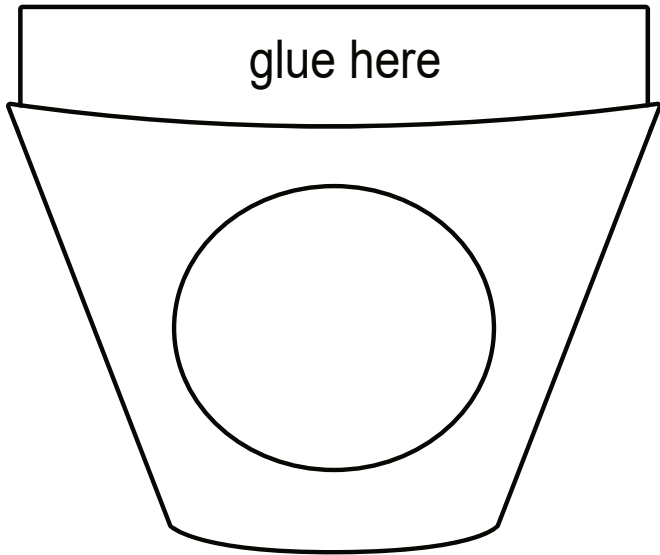

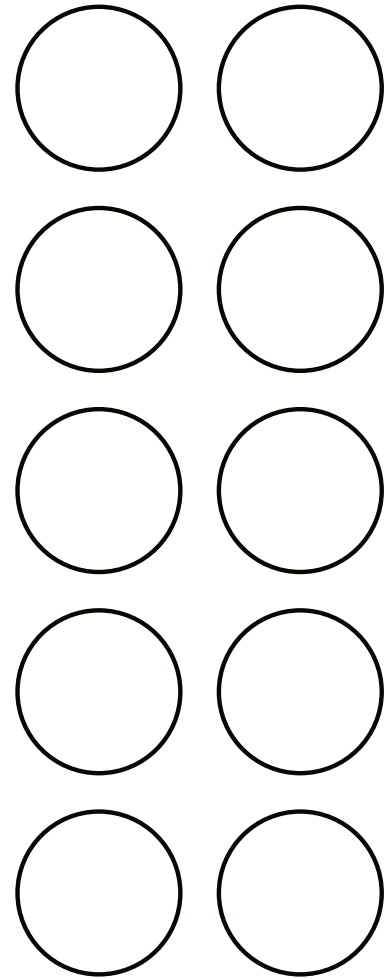

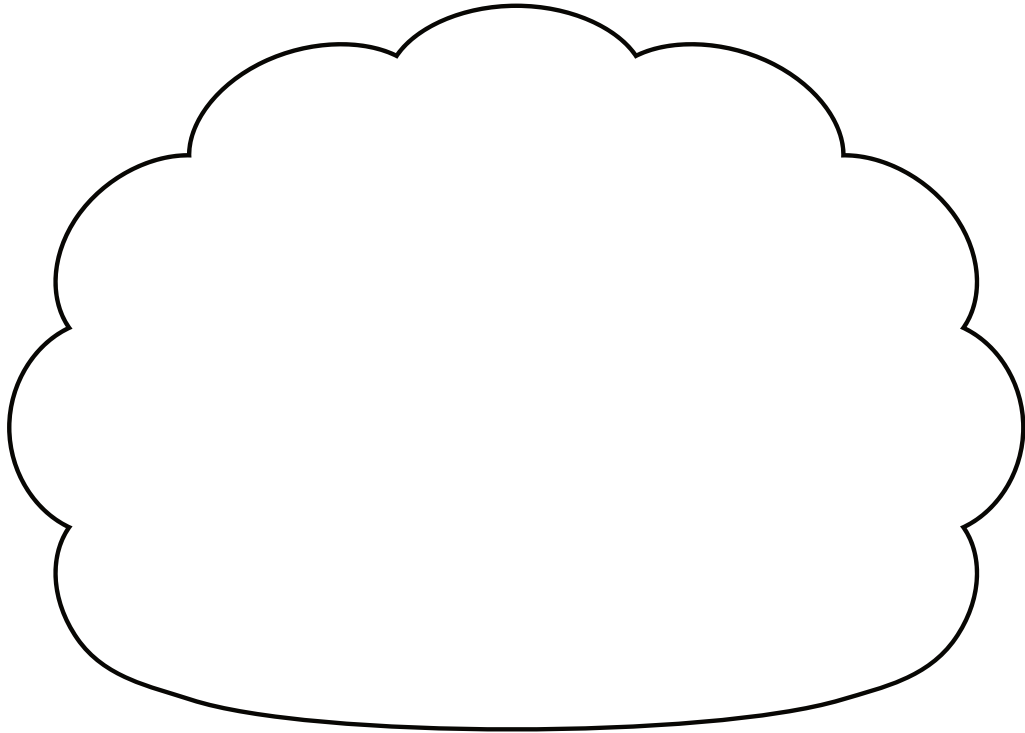

1. Print the cupcake counting pages of your choosing. (I suggest card stock for durability.)
2. If printing the black and white version for coloring, have your child color the pages as desired leaving the numeral space blank.
3. Cut out each of the cupcake counting page elements.
4. Laminate the pieces and add hook and loop fasteners if desired.
5. Use a washable marker to write in the number of sprinkles placed on the cupcake. Simply wipe clean when done!

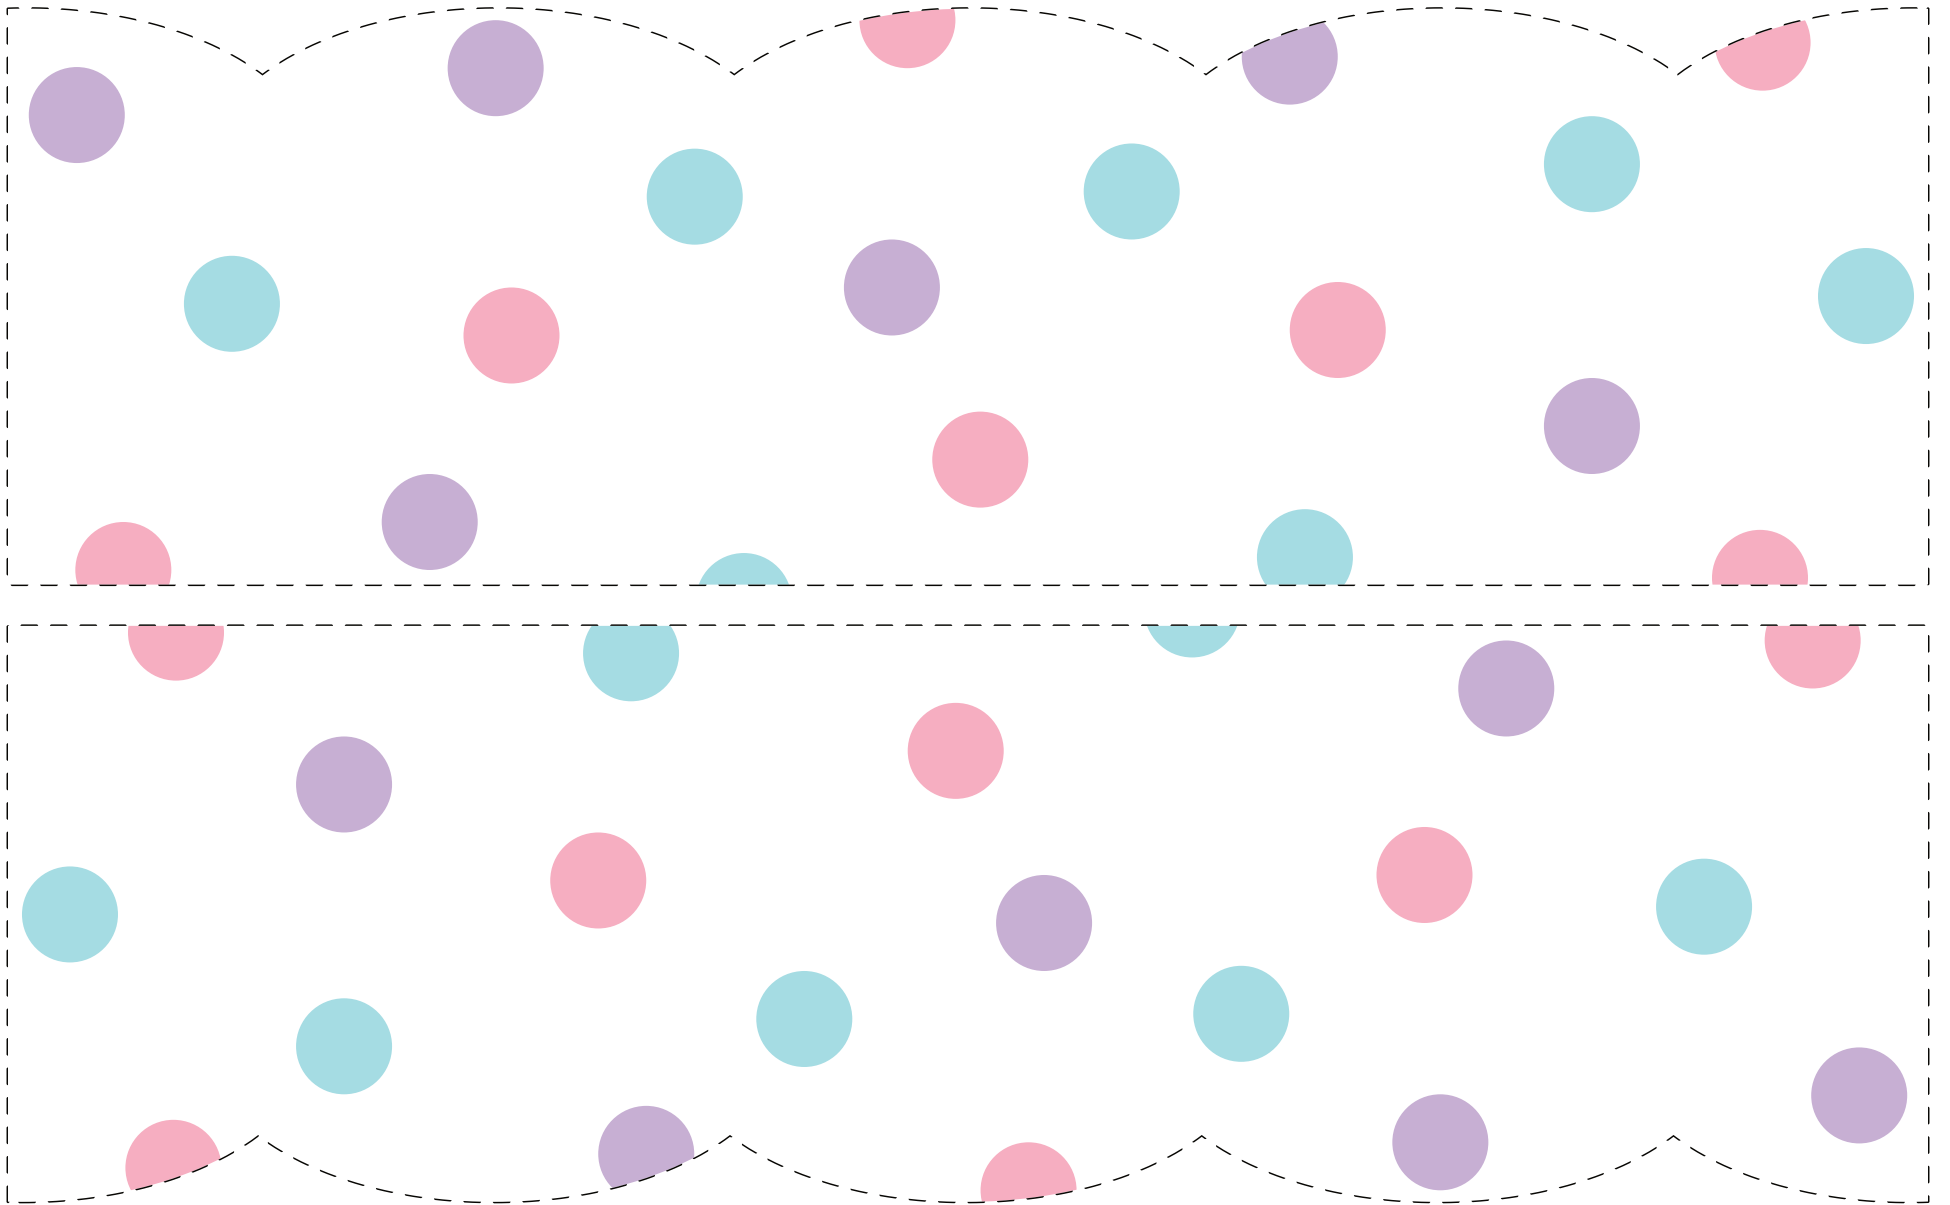

****Tip:** Print the black and white page on colored card stock for a customized option without the need for color ink!
